EDUCATION

B.SC. IN COMPUTER SCIENCE AND ENGINNERING

Ahsanullah University of Science
and Technology

CGPA: 3.47/4.00 (Till 4th year, 1st
semester)

2021 – Present

HIGHER SECONDARY CERTIFICATE

Dhaka City College

GPA: 5.00/5.00

2018 – 2020

SKILLS

- Language:** C, C++, C#, Java,
PHP, Python, Javascript.
- Frontend Tools:** HTML, CSS.
- Frameworks & Libraries :**
ASP.NET , Bootstrap,
iGraphics, Tailwind.
- Database:** MySQL, MS SQL ,
Firebase.
- Platform :** Visual Studio, Visual
Studio Code ,NetBeans,
Android Studio, Google Colab,
CodeBlocks.

EXPERTISE

- Critical Thinking
- Communication Skills
- Problem Solving
- Project Management

ABOUT ME

I am a dedicated and enthusiastic Computer Science and Engineering undergraduate at Ahsanullah University of Science and Technology, with a strong foundation in programming, problem-solving, and software development. I am passionate about learning new technologies, building practical solutions, and collaborating on innovative projects. I aim to apply my technical skills and academic knowledge to contribute effectively in a dynamic and growth-oriented environment.

PROJECTS

Sarisa – 2D Platformer Game

- Designed and developed a 2D platformer game inspired by Prince of Persia 1 using the iGraphics framework.
- Implemented core gameplay mechanics such as character movement, collision detection, level progression, and interactive environments.
- Gained hands-on experience in graphics programming, game loop structure, and performance optimization in C/C++.

Pharmacy Management System – Web Application

- Developed a robust and user-friendly web application to manage pharmacy operations, including inventory, sales, and user access control.
- Utilized ASP.NET for the backend, C# for business logic, and SQL Server for secure data storage and retrieval.

CineMax - Movie Ticket Booking Website

- Developed a dynamic and responsive website for movie ticket booking, modeled after Bangladesh's Star Cineplex.
- Implemented core features such as movie listings, seat selection, ticket booking, and user authentication.
- Created a secure and intuitive admin dashboard to manage movies, schedules, bookings, and user data.
- Used PHP for backend development, HTML/CSS for page structure and styling, JavaScript for interactivity, and Bootstrap for responsive design.

BargainBox - E-Commerce Mobile App

- Developed an e-commerce mobile application using Android Studio, supporting product browsing, cart management, and secure checkout.
- Integrated user authentication, real-time database operations, and order tracking using Firebase.

Chat Application – Desktop App

- Developed a desktop-based real-time chat application using JavaFX for the UI and Java for the backend logic.
